

COLUMBUS IS FACING A DILEMMA

Police and Firemen May be Suspended Owing to Lack of Funds

WOULD USE BIG STICK

Council Urged to Go Into Commercial Lighting Business to Punish Street Car Co.

Columbus, Aug. 20.—With the dilemma staring them in the face of the city's safety department, being exhausted if the strike continues much longer, which would mean the suspension of the police and fire departments before the close of the year, city councilmen today are ready to go after the Columbus Railway and Light company with a "big stick" to force peace.

The plan decided upon last night is to increase the capacity of the municipal light plant so as to enable the city to furnish commercial light and power in competition with the Columbus Railway and Light company. To do this it will require a bond issue of approximately \$200,000, which can be authorized by a vote of the people at the fall election. Copies of a petition asking the council to take this action are being freely signed throughout the city today.

Columbus, Aug. 20.—Manager Stewart of the Columbus Railway and Light company, at midnight, refused to comment upon a report from a seemingly reliable source that the company has decided soon to arbitrate its differences with its striking employees. When asked if he were willing to be quoted in confirmation or denial of the persistent rumor, Manager Stewart said he preferred not to be quoted.

The report had it that Governor Harmon had taken a decided position in favor of arbitration and had indirectly urged upon the company that it take this step, in view of the tremendous losses, inconvenience and unrest which the strike is causing in Columbus. It was said last night that the governor's efforts probably would be successful and that the company had taken the matter under favorable consideration and now expected to consent to arbitration early next week. Governor Harmon yesterday had no statement to make for publication.

City councilmen last evening, in special session, took steps to increase the capacity of the municipal electric light plant so that it could compete with the Columbus Railway and Light company in commercial lighting and power contracts; postponed appropriating more money for strike emergency expenses, but bound themselves to pay bills contracted by the city administration; commended Mayor Marshall for his course in handling the strike and increased to \$100 the reward for the apprehension and conviction of John P. Brady, missing leader of imported car men, by adding \$500 to the \$500 reward offered by the Columbus Federation of Labor.

The Rail-Light company was condemned for rejecting council's proposal to arbitrate and the union car men were praised for accepting it.

Last night was not marked by rioting. Police in citizens clothes, hundreds of detectives employed by the company, and deputy sheriffs and peace officers were about the streets looking for trouble-makers. There were many stones and bottles thrown.

City Solicitor Weinland has let it be known that he will not accede to the union's request that a suit be filed to take the company out of the hands of the present management.

General Manager Stewart of the company yesterday announced that none of the more desirable runs would be held longer for the strikers, that applicants would be assigned to these and that if the strikers came back they would have to begin at the bottom, so far as preference in runs is concerned.

Though the weather yesterday was much cooler than on any day this week the day saw increased patronage on all car lines in the city. Observation showed an increase in passengers despite the dimming heat.

Councilman O'Rourke offered the resolution in council to increase the capacity of the city light plant after a petition, signed by George Hiddle, 10 West Fifth avenue, and 24 other North Side property owners requesting such action had been read. It will entail an expense of \$200,000. The resolution reads:

Initiative report to this council at the earliest possible date, such estimate of cost, together with a resolution providing for the issuing of bonds in a sufficient amount to cover such cost.

INTERURBAN MEN REFUSE RUNS ON THE WEST END

The Times Recorder of Zanesville says that several crews on the Zanesville division of the Ohio Electric system have been asked to take out runs on the western division, which is on a strike, and have refused. It is said the company did not insist after they learned the feeling of the men, probably hesitating before doing anything that might alienate their employees. The men say they positively will not take places of the strikers and will quit first. Neither are they very enthusiastic about handling cars in the city of Columbus, on account of missiles. As one conductor put it, "The crowds do not always pick out the right car and any of us are liable to run into trouble." In some instances crews from this end have refused to take their cars to the barns in Columbus, but have left them at the depot, fearing violence to themselves.

SHOOTING AT ALEXANDRIA

CHAS. MILLER BROUGHT TO NEWARK CHARGED WITH SHOOTING HIS WIFE.

Gave Bond for His Appearance Before Justice Horton September 2.

On affidavit of Bertha Miller, Justice George W. Horton issued a warrant for the arrest of her husband, Charles N. Miller, on the charge of shooting her with intent to kill. The warrant was placed in the hands of Constable Fred Ross and Officer Burke, who succeeded in arresting Miller and bringing him before the justice, who required the defendant to give bond in the sum of \$500 for his appearance in his court, Friday, Sept. 2. The parties live in Alexandria.

STATE RIGHTS IN CONSERVATION

St. Paul, Minn., Aug. 20.—Following the report from Salt Lake City that resolutions had been adopted at the conference of northwestern governors, favoring state rights in the matter of conservation, it is generally accepted today that this will be the all-absorbing question around which interest in the coming congress will center. Officers of the National Conservation Congress today carefully avoided all reference to this subject. A vigorous discussion is expected to arise in the congress shortly after President Taft delivers his address the morning of Sept. 5, when the congress opens.

BEEF TRUST OFFICIAL ESCAPES PUNISHMENT FOR BURNING NOTEBOOKS

Chicago, Aug. 20.—Despite the fact that Alfred E. Brown, general secretary of the American Meat Association, had been indicted for the burning of the state granary notebooks, the state granary notebooks wanted by the state in connection with the trial of the late John P. Brady, missing leader of imported car men, were found in the home of Mrs. Maud I. Dimock, 100 West Fifth avenue, and 24 other North Side property owners requesting such action had been read. It will entail an expense of \$200,000. The resolution reads:

NICK TRIES TO BRIDGE THE CHASM

Teddy's Son-in-Law is at Oyster Bay on Mission of Peace

MR. LOEB THERE ALSO

Lloyd C. Griscomb and Other G. O. P. Leaders are Alarmed Over Roosevelt-Taft Controversy.

Oyster Bay, N. Y., Aug. 20.—Efforts to bridge the chasm between Oyster Bay and Beverly were begun today. Son-in-law Nicholas Longworth came to Oyster Bay today, fresh from the golf links and political councils of Beverly. There is no doubt as to the fact that Longworth comes as an envoy from the president to measure the width of the Taft-Roosevelt breach, and to do his best to repair the damage. Col. Roosevelt refused to indicate the chances for a reconciliation.

Meanwhile Collector Wm. Loeb Jr. and County Chairman Lloyd C. Griscomb of New York are preparing to go to Beverly to try their hands at peace-making. They are not going as Roosevelt emissaries, for Colonel Roosevelt declares he knows nothing of their plans. But both Loeb and Griscomb, as well as many other Republicans, are admittedly alarmed over the Roosevelt-Taft situation. They realize that if it comes to an open fight, Roosevelt vs. Taft, they will be placed between the horns of an unpleasant dilemma and called upon to stand up and be counted on one side or another. So they have busied themselves. Following the council of war at Sagamore Hill Thursday, they have made preparations to undertake their peace-making visit to Beverly.

It is pretty well understood that Col. Roosevelt is not over-anxious for the success of their mission. It is probable that any terms of compromise that might be satisfactory to Roosevelt would be too drastic for acceptance by the administration, and that a refusal to compromise by Beverly would intensify the trouble.

"SUNNY JIM" WILL NOT BE DROPPED.

Beverly, Aug. 20.—If peace between Oyster Bay and Beverly depends on the severing of relations between President Taft and Vice President Sherman, there will be no peace. Among friends of the administration the latest attitude attributed to Col. Roosevelt and his newest ultimatum, that the vice president must be dropped from participation in the political councils of the administration is the price of peace, is considered preposterous. Col. Roosevelt is asking the impossible, they say.

Wilmington, Del., Aug. 20.—A large party searching the woods near Claymont for the burglars who beat Robert Case, 70, and his wife, Anna, 65, to death with a club twisted from a wild cherry tree and then robbed their store and home early today. The aged couple lived alone.

LONG COURTSHIP ENDS HAPPILY

Muncie, Ind., Aug. 20.—A courtship commenced half a century ago was ended Saturday when Absalom Weichel, 74, a wealthy farmer, and Mrs. Mary Newfarmer, about the same age, were married at Anderson. The two were sweethearts when they were in school together but became estranged and each married another. Mrs. Newfarmer's husband died recently and Weichel's wife passed away, and the old sweethearts were reunited.

BALLOON DRIFTER LANDS.

Cincinnati, O., Aug. 20.—George R. Howard, pilot, and his four companions who ascended in the balloon Drifter at Hamilton, arrived in Cincinnati today from Dry Ridge, Ky., where the party landed. The landing was made without accident. Dry Ridge is about 50 miles south of Hamilton.

WILL ASSESS MINERS \$1 EACH WEEK

Indianapolis, Aug. 20.—A weekly assessment of \$1 on every employed member of the United Mine Workers' Association for the support of striking miners in the various districts and a complete endorsement of the international officers and executive board are contained in the report of the special policy committee submitted to the miners' convention today. It is recommended that the convention fully endorse the Illinois strike and the prolonged struggles in other districts where mines have remained closed since April 1. Engineers and pumpers will be ordered back to work for the protection of property. In order to properly finance the present strike the committee says that \$144,000 weekly must be raised by the membership.

TWAIN'S DAUGHTER A MOTHER.

Redding, Conn., Aug. 20.—A daughter was born yesterday to Mr. and Mrs. Oscar Gabrilowitch, at Stormfield, the home of the late Samuel M. Clemens (Mark Twain). Mrs. Gabrilowitch was, before her marriage, Miss Clara Clemens, eldest daughter of Mark Twain.

DETECTIVE WAS SHOT TO DEATH BY ITALIANS

Oyster Bay, N. Y., Aug. 20.—George Costelli, a New York detective, was shot early today on the wharf of the Seawanhaka Yacht Club here. Costelli, recuperating from a bullet wound inflicted in an attempt to assassinate him in New York last spring, was acting as caretaker of the yacht club house. He had become involved in a feud with a gang of foreigners who loitered about the club, and whom he had warned away. The gang attacked him early this morning and Costelli, a man of enormous strength, drove them off single handed. They returned later and one of them armed with a shot-gun, killed Costelli.

Mrs. Sarah McBee in Precarious Condition in Zanesville Hospital.

Zanesville, Aug. 20.—With her nose completely cut off, her cheeks terribly slashed and with deep gashes on her neck and hands, Mrs. Sarah McBee, 20, lies in a local hospital today in a precarious condition, the victim of a brutal assault by Charles Johnson, 27, a rejected suitor. Mrs. McBee was attacked in the Fair Oaks Baptist church yard this morning by Johnson, who used a razor with fiendish brutality. Mrs. McBee has been twice divorced. Johnson has been paying her attentions. It is said his offer of marriage was refused. Johnson is in jail.

DR. CRIPPEN AND MISS LENEVE ARE ON THEIR WAY

Quebec, Aug. 20.—In charge of Inspector Dew of Scotland Yard, and a detective and two wardresses sent over from England, Dr. H. H. Crippen and Ethel Leneve, wanted in London on the charge of murdering Mrs. Crippen, were taken from Quebec prison this morning and rushed across the St. Lawrence to Sillery, where the liner Megantic was boarded for England. Only a small crowd witnessed the departure of the officers and their prisoners.

\$7.50 PER PLATE FOR TEDDY'S DINNER

Chicago, Aug. 20.—It will cost \$7.50 to dine with Col. Roosevelt at the Congress Hotel on the night of Sept. 8. Besides, one must first have an invitation from the Hamilton Club, whose guest he will be and then draw for a chance to be a favored one. Enraged invitations with cards setting forth that the drawing for tickets will take place at 2 o'clock Aug. 28 have been issued. Officials of the club say that the capacity of the large banquet hall will be taxed, which necessitates the drawing for chances.

HOWELL REPORT IS NO SECRET

Sukphur, Okla., Aug. 20.—"There is no secret about the Howell report made to the committee on Indian affairs and while it may never have been generally circulated, the subject matter is well known and practically all of it appears in the printed hearing of the house committee of the proposition to re-open the citizenship rolls." This statement was made by Chairman Burke, of the Gore investigating committee today after the statement from Washington that he was believed "to have something up his sleeve" if the Howell report was read to him. Burke insisted that Howell's report had no bearing on the present investigation.

"Howell spent several weeks in Oklahoma investigating the methods of putting the Indians on the rolls," said Burke, "and made an exhaustive report on many cases. At first the interior department was reluctant to give me a copy of the report, but when I got it, I let lawyers and everybody else who wanted to, see it. The report is now in my office at Washington and I would not hesitate to let anybody have it were it here."

AUTO CRASHED INTO BUGGY: ONE KILLED

New York, Aug. 20.—Held without bail at police headquarters, Edward T. Rosenheimer, a millionaire, is accused of running down and killing Miss Grace Hough last night and seriously injuring George Vedder and Miss Anna McCabe. According to witnesses the car which struck Mrs. Hough and her companions, who were riding in a buggy, was running fully 70 miles an hour. The buggy was literally torn to pieces, but the automobile disappeared. When arrested Rosenheimer denied that his auto had been in a smash, despite the fact that the lamps and the front end were badly damaged.

WASH TUB RACE IS THE LATEST

Miss Huff Establishes New World's Record on the Wash Board.

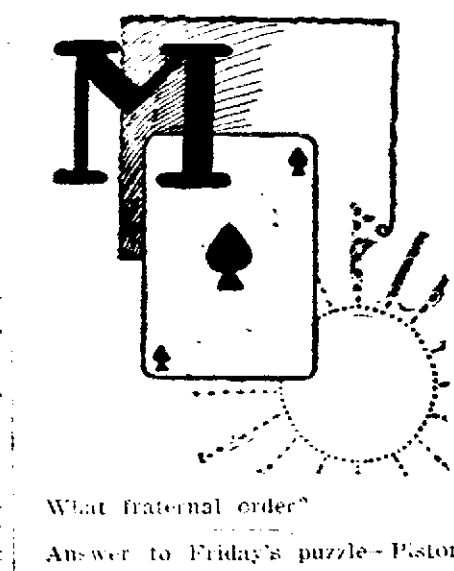

Woodbury, N. J., Aug. 20.—A washboard contest is the latest thing in sporting events in New Jersey, and what is believed to have been the establishment of a new world's record yesterday is the topic of the hour today. Miss Stella Huff is the new champion, she having washed and hung out 144 pieces of clothing on her and a quarter. Her closest competitor, Miss Nellie Harper, had 115 to her credit. They used washboards and scrubbing boards of the old fashioned type and Miss Huff's friends say they are willing to back her claims to the "washboard" championship with real money.

WHITE SOX GET CRACK OUTFIELDER

Springfield, Mass., Aug. 20.—Crestor P. Waite, the crack outfielder of the Connecticut League, has been sold to the Chicago White Sox, according to an announcement by the manager of the Springfield, Mass. club. Waite is the join the White Sox at the close of the Connecticut League season, Sept. 10. He will go to Chicago, where the Sox will be playing at that time.

Fred Lake of the Boston Nationals made an offer for Waite, but he was several hours late.

CONNIE MACK'S TEAM TO WIN

New York, Aug. 20.—If the Philadelphia Athletics win one half of their remaining games and the Boston Red Sox three-fourths of theirs, the former will still win the pennant by one game. This shows, to the satisfaction of the New York fans, that Connie Mack's team has a chance to win the American League in the world's championship series with the winner in the National League.

Philadelphia has won 71 games and lost 41, while Boston, in second place, has won 61 and lost 47, giving the Athletics a clear lead of twelve games. Provided all the remaining games are played, Philadelphia has a 10-1 chance to win the pennant.

A portion of the Mecca hotel at Coshon, collapsed last night. It had been condemned and was unoccupied. No one was hurt.

Rayne L. Curtis of Coshon was chosen head of the Phi Sigma Chi fraternity, national branch, at the Canton convention yesterday.

Hiram Water, aged 72, was found dead in bed at his home near Wallingford yesterday. Apoplexy caused death.

BANK PRESIDENT DIES.

Canton, O., Aug. 20.—Louis A. Leichter, president of the First National Bank and widely interested in Canton enterprises, died yesterday at his home after an illness from pneumonia dating from July 12. Mr. Leichter was born in Stark county, and started his banking career as an errand boy.

SET HIM THINKING.

The Reason His Wife Gave For Disliking Postponements.

Just when Mrs. Ackroyd had finished packing her trunk and after William Ackroyd had bought railway tickets for her and their two daughters little Bessie came down with a severe case of whooping cough. The doctor positively refused to let the child start on a long journey, and even if he had thought it safe for the little one to leave home he would not be permitted to take the patient into a hotel anywhere.

"Isn't it a shame?" the distressed lady wailed. "Here we are with everything in our trunk, and my husband has even bought our berths in the sleeper."

"It is unfortunate, but I don't know what you can do except sit down and wait four or five days. It may be safe then for you to start away."

When her husband got home that evening Mrs. Ackroyd was weeping.

"Don't take it so hard, dear," he said. "It might be a good deal worse. Our little one is likely to get along all right. The doctor says the case isn't an unusually severe one, and when I telephoned him this afternoon he said he thought it might be safe for you to start away by the end of the week."

"I know. He told me the same thing. But I feel that we'll never go. I never postponed anything yet that didn't turn out badly. I once postponed a wedding, and the marriage never took place."

Half an hour later William Ackroyd was still sitting in a corner alone thinking it over.—Chicago Record-Herald.

Use Much Cold Cream.

After exposure to the sun do not bathe the face at once. Rub in a soothing cold cream, letting it remain at least half an hour. Wash off with water as hot as can be endured. Before going to bed that night rub in more cold cream, letting it stay in all morning, when it may be washed off with soap and water. Use cold water or lumps of ice to close the pores.

Where it is impossible to use grease on first returning home wipe off soil and grime with alcohol and rosewater, then apply cloths wrung from very hot water to allay the burn.

Where sunburn has a poisonous effect, producing blisters or ugly sores, extra care must be taken for protection. Before going on any long expedition on land or water rub glycerin into the face, then powder thickly with talcum powder.

HANDY MIRROR.

Suction Bulb Permits It to Be Fastened to Wall or Window.

Next to a good razor the most important requisite to a comfortable shave is good light. Even a good razor is handicapped in a poor light. Usually a man is at the mercy of the location of the windows or the lighting fixtures in his bedroom or bathroom. When he gets the rays on one side of his face the other side is in shadow and the razor is not always so arranged that a portable mirror can be adjusted to suit. But the mirror here described overcomes all these obstacles. It is hung to an air-tight box with a rubber foot.

OHIO RIFLE TEAM NAMED

Camp Perry, Aug. 20.—Ohio's team which will compete in the national match to be shot next week will include eight men who were members of the state team, which finished fifth in last year's match.

The members of the team this year are: Major Charles S. Benedict, Second Brigade; Major William Z. Roll, First Brigade; Sergeant Ernest Miller, Company D, First Infantry; Sergeant Charles Duffy, Company D, First Regiment; Captain Gay H. Emerson, Sixth Infantry; Sergeant Roushon, Company G, Second Infantry; Lieutenant Charles H. Chisholm, Engineers' Corps; Lieutenant Harry A. Webb, Company A, Sixth Infantry; Lieutenant Jacob A. Stemple, Second Infantry; Private James A. Shook, Troop B; Lieutenant Abel Rockroth, Second Infantry, and Captain William Emmett, Eighth Infantry.

Motion to Admit to Bail.

The motion filed in the case of the State of Ohio vs. Frank Gracet, to be admitted to bail, will probably be heard Monday.

PAPKE WILL FIGHT FOUR IN AUSTRALIA

Chicago, Aug. 20.—Billy Papke knows today who the men are that he is going to fight in Australia. After a conference yesterday with Hugh McIntosh, the Australian promoter, the agreement was signed.

Papke will meet four middleweights during a period of twenty weeks. They are Dave Smith, Arthur Cripps, Edward Williams and Les O'Donnell, and none of them is to weigh more than 165, ragside.

None of the fighters is known in America. McIntosh reserved the right to extend the contract an additional 20 weeks if more opponents can be found. Papke and his bride will leave Chicago Sept. 1 and will sail from Vancouver on the 15th. They will be accompanied by Ed. Papke and wife. The first fight is scheduled for the last of October or the first of November.

McIntosh also made a proposition to Packey McFarland to fight three men in the antipodes this winter. If he does, McIntosh will have to guarantee Packey \$10,000 and round trip transportation for two.

HYLAND IS A "PUG" WONDER

New York, Aug. 20.—Fight fans are wondering what kind of a man is "Fighting Dick" Hyland, the California lightweight who fought two sizzling 10-round fights in two successive nights.

Wednesday night Hyland had a shade over Battling Hurley of Pasadena, N. J., at the Sharkey Athletic Club. The bout, the club members declared, was the fastest seen in this city in years, and would have three out of a man of less stamina. Last night Hyland came right back and fought a 10-round bout with Willie Beecher at the Long Acre Athletic Club. The two boys scrapped viciously all the time. Though most of the spectators declared the fight should have been a draw, many of them thought Hyland won.

Where it is impossible to use grease on first returning home wipe off soil and grime with alcohol and rosewater, then apply cloths wrung from very hot water to allay the burn.

Where sunburn has a poisonous effect, producing blisters or ugly sores, extra care must be taken for protection. Before going on any long expedition on land or water rub glycerin into the face, then powder thickly with talcum powder.

HANDY MIRROR.

Suction Bulb Permits It to Be Fastened to Wall or Window.

Next to a good razor the most important requisite to a comfortable shave is good light. Even a good razor is handicapped in a poor light. Usually a man is at the mercy of the location of the windows or the lighting fixtures in his bedroom or bathroom. When he gets the rays on one side of his face the other side is in shadow and the razor is not always so arranged that a portable mirror can be adjusted to suit. But the mirror here described overcomes all these obstacles. It is hung to an air-tight box with a rubber foot.

Camp Perry, Aug. 20.—The five individual revolver matches of the National Rifle Association were awarded yesterday as follows:

Slow fire, 75 yards.—C. E. Orr, Alton Rifle Club, 87.

25 yards, rapid fire.—W. H. Spencer, Missouri, 97.

50 yards, rapid fire.—E. G. Reising, Connecticut, 90.

15 yards, rapid fire.—Leroy Lyons, Colorado, 90.

WOMAN'S WORLD

The fourth annual reunion of the Baker family, was held at Riel Park, Wednesday, where a large number of relatives gathered to spend the day each one enjoying the dinner hour. The afternoon was spent in social conversation. Owing to sickness and other disappointments, some of the families were absent, but hope to meet at next year's reunion. The family has planned to have a good program. They will meet at the home of J. G. Case, Croton, O., the third Wednesday in August, 1911.

The same officers were elected for the coming year, Charles Fyner, president; Ostrander, O. Mrs. Eva L. Penick, Newark, secretary and treasurer.

Those present were: Mr. and Mrs. J. G. Case and son Gail and daughter Hazel of Croton, Mr. and Mrs. Charles Meyer and son Frank of Croton, Mr. and Mrs. H. D. Case of Croton, Mr. and Mrs. John Baker and daughter Lena of Croton, Mrs. Jessie Meyer and daughter Edna of Johnstown, O. Mrs. M. L. Brown and Francis, town of Johnstown, Frank Baker, Johnstown, W. F. Townsend, a William A. Townsend of Spencer, O., Mrs. William Hoeser and son Elmer of Caledonia, O. G. W. Queen of Marion, O. Mrs. N. A. Duke and son E. C. Duke, 2677 Adams avenue, Columbus.

Misses Bertha and Grace Young entertained with a party appointed tea yesterday afternoon at their home, 150 Oak street, in Columbus, honoring their guests, Miss Minnie Bryan of New York and Miss Mary Gwen of Newark. There were 100 guests. Miss Case Rowland and Mrs. Max Schmidt presided at the tea table and Misses Louise Noble and Lucy Schumacher at the punch bowl. The rooms were decorated with asters.

Miss Doris Rugg of North Clinton street will entertain Tuesday evening with a farewell party, honoring Miss Julia Elwell.

The seventh annual reunion of the Davidson-Rine families will be held at Blawie Park, Mt. Vernon, O., on Saturday, September 3. A good time is anticipated and everybody is invited.

The first reunion of the Lampton-Gutridge families was held at Riel Park, August 18th, and was attended by a large crowd of relatives and friends, numbering several hundred people, and owing to a misunderstanding a great many of the family were not present. A sumptuous dinner was spread at 12 o'clock to which all did justice. Commencing at two o'clock a number of addresses were given. The first speaker introduced was Rev. Robert Kell, a native of England, and rector of St. Stephen's Episcopal church of East Liverpool, O. He gave a brief but interesting history of the Lampton family, which is one among the most prominent of the English nobility, and occupying an important place in political affairs of the British government, and being extensively engaged in the mining business. Three of the eldest living members of the family were then introduced. Mrs. Malinda Bishop, Samuel J. Lampton and Robert C. Lampton, whose average age is 80 years. Mrs. Barbara Mack, the youngest member of the family, was also introduced. Rev. James M. Laup and gave one of his interesting talks. Rev. H. J. Duckworth, Ph.D., of Mt. Sterling, a feature of the occasion was a violin solo by Mr. John Webb of Knox county. Although he is past 70 years of age he is still hale and hearty, and the clear, sweet tones wafted to the ears of the audience was undisputable evidence that he is

still master of the bow. At the close of the entertainment all again repaired to the grove and partook of refreshments, which seemed to invigorate both old and young, in fact they were eager for the continuation of the fun, which consisted of foot racing, mail driving contests, etc.

Representatives were present from six adjoining counties, who were loud in their praise of Old Licking, being the banner county for hospitality. At a late hour all departed for their several homes, hoping to be able to clasp glad hands in reunion again on the third Wednesday in August, 1911.

Veal Kidneys a la L'Hallienne.—In a saucepan put one tablespoonful of butter and one tablespoonful of flour and cook slowly until well colored. Add to this one cupful of stock and stir until thick and smooth. Add one tablespoonful of mushroom catsup and two tablespoons cut small for scall, half cupful of canned tomatoes, salt and pepper to season and simmer for ten minutes. Strain and return to fire. Add one tablespoonful of chopped parsley, one tablespoonful of chopped ham. Split the kidneys without quite dividing the halves. On the cut side of each lay a thin slice of bacon and fasten open with a skewer. Broil three minutes on each side, cooking the cut side first. Remove the skewers, arrange on a heated dish and pour the sauce around them.

Lobster Salad.—Take the flesh of a cooked lobster. If the shell is to be used brush with hot with salad oil, then brush off again. Break the lobster head from the tail remove flesh from body and claws. Cut into neat pieces. Wash and shred some salad finely, add some of it into a salad dish, then some slices of lobster piled in the center and coat with mayonnaise dressing. Place the head at one end, and the tail at the other. Make a lattice work of anchovy fillets, and a shurken like a fan at the other. Keep on ice until required.

Living Effectively.

With the present pace at which we live, it behooves one to take a little time to study out how to live most effectively. Business is a rush, a strain, frequently a worry. Social life is complex, arduous. Into each enters individual problems as well. One person has irregular hours of work, another works at night. Some by reason of their position, or their husband's profession, must live up to a certain standard socially, yet have scarcely the means to do so. Shall one let these things become a burden, a master? Or shall one study them carefully, master them and thus live most effectively?

Take, for instance, the business girl who works from 8 in the morning until 6 at night with an hour for luncheon, whose weekly salary is small, barely sufficient to meet her weekly needs. What shall she do? Plod on drearily with no hope of escape from the treadmill? Or make an escape through a door that leads only to ultimate wretchedness? Or marry simply with the desire to better her present condition, not because it is the marriage she really wants to make?

A girl should do none of these things. She should study the situation before her carefully and plan deliberately to better it. First, she needs good health; second, she needs greater ability for her work. Both can be hers. She should take part of her noon hour to rest. Instead of idly chatting, or else spend it in a break walk. Either will bring her to the evening less tired, and capable of studying which will, in turn, help her to better paying work. She should look into the matter of food, to get the most nourishment for the least money. The public libraries will aid her to do this. She should strive for the minimum of cost in living and the maximum of energy, all that she may eventually live more effectively. Money is wasted in food, in that one does not get an honest equivalent in nourishment for the money spent. Money is wasted on

dress. It requires etical self-denial not to indulge in the pretty little things which have neither wear nor warmth. But a girl can dress simply, yet attractively, and cut out all unnecessary expense. With a year or two of such living, a girl will begin to pull ahead. She will be able to meet her needs. She will begin to live effectively. She will begin to live effectively, instead of being the victim of circumstances.

A person often doesn't live effectively though his circumstances are comfortable. A man may have a good position, sufficient salary for his needs, and yet not be getting all out of life. If he takes little or no exercise, if he eats indolently, if smoking is a continuous performance with him, he is not living effectively. He is not measuring up to the full standard of physical vigor that might be his and, consequently, he is not getting the full enjoyment of life, though he cannot know what he misses until he makes himself more physically perfect.

Sometimes business requires that one work in most unhealthy surroundings, or sleep irregularly, or eat food that is not all that is to be desired. It may be impossible to change these conditions, but do not accept them resignedly, nor do nothing to offset them. Do not become a machine, a hopeless machine at that, or a mere cog in the wheel. Study the problem that is yours; do something to offset those conditions, so order your life that they can work you no harm. Every problem has its solution. Every life can be lived effectively. It is a pleasure in itself to tackle the proposition and to come out master, to say nothing of the out master, for living when one really lives, not merely works, like an animal, or drifts like a log or is pushed about helplessly by circumstances. Effective living is for every one, if he will study the game of life and play to win.

NEW CORN CURE A REAL MARVEL

Guaranteed and Absolutely Painless.

A corn cure that is painless and that will really do the work has finally been discovered. Heretofore, the poor sufferer from corns has been pestered with "drawing" salves and plasters that swell the corns, and has had finally to gouge out his corn and inflict upon himself still greater pain. With Hall's Painless Corn Cure all pain ceases on the first application, and then finally the corn comes right off easily and painlessly. You don't have to dig it out and run the risk of drawing blood, making your corns still more sore or getting blood poison.

Hall's Painless Corn Cure is easier to use than any other; it takes a few seconds to apply it. It is guaranteed absolutely in every case. You must be satisfied, or back goes your money.

HALL'S PAINLESS CORN CURE

Lasts longer than several packages of any other corn treatment, and you are sure to get rid of corns and bunions. Sold at 25 cents a bottle at

EVANGELIST HOLDS CROWD

There is something doing when a large audience will stand for more than an hour and listen to an outdoor preacher while he tells them of Bible truths, yet that was what many did last night in the court house park when Evangelist W. A. Cuddy of Atlanta, Ga., talked. Rev. Mr. Cuddy says the reason is easy. It is because of the line of teaching that he is giving on the prophecies of coming events. Tonight and Sunday at 7:30 o'clock he will talk on the Book of Revelations. Sunday at 3 p. m. he will address the meeting at Taylor Hall, Y. M. C. A.

DEAFNESS CANNOT BE CURED

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c.

LABOR NEWS

There was a well attended meeting Sunday morning. President Deines called the body to order and the meeting was opened by the chaplain in an impressive manner. The roll call of delegates showed a socially number present, while the roll of officers showed all present with the exception of Guard Edmunds, whose position was ably filled by Brother Joan Ditter.

The Journal of the last meeting was read by Secretary W. M. Moran and approved. John L. Adams, delegate from Plumbers' Union, No. 272, and Howard Wilson, delegate from the Carpenters' union, 136, were obligated by the chair.

The auditing committee reported progress, and will have its final report ready to be read at the next meeting.

The Memorial Sunday committee reported at a special meeting that Rev. F. E. Vernon would deliver an address on "Labor," at the High School Auditorium, on Sunday afternoon, September 4 at 2 o'clock. An interesting program will be carried out and there will be both instrumental and vocal music. A cordial invitation is extended to all to attend the meeting.

The committee appointed to investigate the Hull proposition, by resolution favor the purchase of the real estate by the city for library purposes.

A number of bills were allowed and ordered paid.

A letter from President Samuel Gompers of the American Federation of Labor, states that the trouble between the Federation and the Buck Stove and Range company of St. Louis has been settled to the satisfaction of all concerned.

The back aches because the kidneys are blockaded.

Help the kidneys with their work. The back will ache no more.

Lots of proof that Doan's Kidney Pills do this.

It's the best proof, for it comes from this vicinity.

Mrs. W. H. Kirk, 405 Walnut St., Mt. Vernon, Ohio, says: "Some three years ago I gave a public statement recommending Doan's Kidney Pills. At this time I cannot add anything to what I then said, except that my confidence in Doan's Kidney Pills is just as great as ever. A member of my family had suffered from kidney complaint and backache and was unable to get relief until Doan's Kidney Pills were used. They went direct to the root of the trouble and removed all the distressing symptoms. I am willing to give Doan's Kidney Pills my re-endorsement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

"THEY HAPPENED."

New York, Aug. 26.—A new souvenir postcard is having a big sale in the vicinity of The Outlook office, and the Republican club. Printed upon it, between two flower pots which stand forth in glaring relief, is the following bit of sentiment: "I put myself in the way of the things happening and they happened." (Signed) Roosevelt.

That, according to the postcard, is what Roosevelt exclaimed when first informed of the rejection of his name by the Republican state committee for temporary chairman of the state convention.

CONVICTION OF DR. CRIPPEN MAY BE DIFFICULT

London, Aug. 26.—Unless he confesses to the murder of his wife, there is every prospect that Dr. H. H. Crippen, when he comes to trial will benefit greatly by the recent hanging of John Alexander Dickman on a conviction of the murder of John James Nisbet on a train near New Castle. Dickman was found guilty on purely circumstantial evidence and since his execution a number of things have come to light, which had they would have worked strongly in Dickman's favor. As a result of the publicity given this case public opinion is now decidedly against conviction on circumstantial evidence, and it is admitted by even the prosecution that the case against Crippen is largely circumstantial.

Considering the manner in which Mrs. Crippen's body—or the body supposed to be Mrs. Crippen's—was disposed of and Dr. Crippen's subsequent flight with his typist, Miss Levee, few lawyers doubt that the prosecution will be able to make out a case insuring a long imprisonment, but equally few believe it will be possible, so soon after Dickman's execution to hang Crippen.

LUXOLABRA ONLY LIGHTS LAST NIGHT

The exclusive article published in the Advocate last night telling of the wrecking of the city electric light plant, and the additional fact that the city would have to remain in darkness for a period of possibly six weeks caused a wave of consternation to sweep the citizens, for as many of the streets of the city are in bad shape, some being torn up for the laying of water mains and sewer pipe, accidents may result.

The general expression of opinion is that the incompetent men at the plant should be removed by council and men capable of running the plant should be appointed. The general demand is that council shall take immediate action and investigate on whom the responsibility for the wrecking of the plant shall be laid.

Opponents of the tuxolabra, which were placed in the square, now realize their worth for without them that portion of the city would be in total darkness. These lights are maintained by the Licking Light and Power company and they were the only lights burning in the city last night.

RIOT SUSPECT HELD AT MANSFIELD

Another suspect in the Ethelington lynchings was taken into custody at Mansfield Friday night at the request of the local police department, and Chief of Police Hindel went to that city to return the prisoner to Newark. The man will be brought back tonight and locked up in the county jail.

The police are making a strenuous effort to land other suspects and more arrests are expected soon as a result of their endeavors.

NEBRASKA PRIMARIES

Give Dalmann the Democratic Nomination for Governor.

Omaha, Neb., Aug. 26.—Additional returns from Tuesday's primary election received today and last night indicate that Mayor James C. Dalmann, of this city, has secured the Democratic nomination for governor over Governor Shallenberger by a safe majority. Returns from 1,338 precincts out of 1,645 in the state gave Dalmann 24,949 and Shallenberger 22,652.

Shallenberger may run on the Populist ticket. He was the only candidate for the gubernatorial nomination in the Populist primaries.

SHERIFF'S SALES.

Saturday afternoon two pieces of property were sold by Sheriff Frank Slabaugh from the south steps of the court house.

The first piece sold consisted of the brick store building on West Main street, west of Sixteenth street, formerly belonging to O. P. Conner, which was sold off to Bertha L. Conner for \$1,600.

The other piece consisted of a 100 acre tract of land in Salisbury and Perry townships, belonging to William H. Meyers and Elizabeth Meyers, and was sold to Mary E. Thomas for \$800.

MILITARY COURT

WILL TRY BARON FOR SALE OF SECRETS

St. Petersburg, Aug. 26.—Announcement today that Baron Von Ungern-Sternberg is to be tried before a military court instead of a civil court on a charge of selling Russian military secrets to Austria, is believed to bode continuous for the baron.

The original intention was to have a public trial before a civil court so that the world might know to what extent the Austrian embassy with which the baron is said to have been in collusion, and abused the hospitality the czar extends to it. The only reason assigned for the change is that a civil court cannot punish with death, while a court martial can. The hearing will begin early in October. The police say they have evidence of a larger number of sales of information by the prisoner to the military attaché at the Austrian embassy.

TAKES MARBLE CROSS FOR GRAVE OF HER LOVER

Will Travel Seven Months in "Dark-est Africa" To Pay Tribute To Her Fiance.

London, Aug. 26.—A journey from England to Central Africa that she may erect a marble cross on the grave of her dead lover was begun today by Miss MacLeod, daughter of Sir Reginald MacLeod, under secretary for Scotland. Miss MacLeod's fiance was Lieutenant David Alexander, who was murdered by a native near Abeshr last April. Alexander's body was recovered and buried at Malloni, a British post near Lake Chad. Miss MacLeod's journey will require seven months, and has never been accomplished by a white woman. She will travel about 200 miles up the Niger river and then about 500 miles across one of the wildest sections of Africa. Friends tried to dissuade her from such a perilous though romantic pilgrimage, but in vain. She is taking the marble cross with her.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. RACE PROBLEM THREATENS CUBA

Washington, Aug. 29.—Reports of outbreaks in Cuba, which are of the intermittent and unceasing variety, are but the reflection of a problem which threatens the new republic with the most serious consequences. According to the experts who are in touch with affairs in the island, the race problem is the real question and the situation is more acute than in the United States.

It is for this reason that the government of Havana takes no chances with the outbreaks. Troops are at once sent to the scene as soon as a case is reported. In every outbreak so far, the disorders have been suppressed, but the difficulty of which they are a manifestation is not materially diminished.

At the time of the war of liberation, when the island undertook to free itself of Spanish domination, they were the only of the army came from the province of Santiago. A large portion of this army was made up of negroes. Whether or not they were given promises of equal representation with the whites beside whom they fought, or promised a share of the public offices under the new government, the negroes have not forgotten. So far they have not received any of the offices, and their privileges are in fact not so extensive as those of the white element of the population. They feel that they have not been treated fairly, and since the establishment of the present government, there have been numerous small outbreaks of a revolutionary character—disturbances which presage a more serious revolution later if conditions do not change.

Until recently the outbreaks have been led by negroes themselves. The last affair of this sort, which was completely suppressed, was led by a colored H. C. Owens, a discontented white officer. Under white leadership the agitation becomes much more serious. The danger becomes greater as the number of malcontents and agitators increases. The negro element of Santiago has been trained in military experience. It is very numerous. All it needs to become a serious menace is the leadership of competent white officers. The prediction is freely made that trouble originating from this source will lead to the overthrow of the republican government and necessitate the third interference of the United States in the affairs of the island.

Military experts of the war department are under consideration a plan to add to the dirigible balloon or airship as the equipment of the signal corps. A strong plea will be made to congress during the coming session for an appropriation sufficient to enable the department to purchase one or two airships of the Zeppelin type and to build a plant necessary for the maintenance of these aerial monsters.

This means that the army is not ready to adopt the aeroplane as a part of the military equipment for national defense. The experts are of the opinion that the dirigible has been perfected, while the aeroplane is still in the experimental stage. Recent accidents to aeroplane operators have accentuated this point of view. The dirigible, they say, is a flying trip with a high degree of certainty, and has demonstrated its usefulness as a war machine, not only for scouting purposes, but for carrying materials and men and weapons, which could be used to great advantage.

This pronouncement on the merits of the dirigible by the officers of the general staff is the present decision on the controversy which has been maintained by the partisans of the two types since the aeroplane came into the aeronautic field. The army has faith in the dirigible, despite the accidents to the Zeppelin ships, and has not faith in the aeroplane, whatever hope there is of its further development.

It is the ultimate purpose of the signal corps, according to the general plan which has been adopted, to establish the aerial corps as subsidiary to the coast artillery corps. Stations will be established for the big airships at forts along the coast, so that they may be ready for service in connection with naval engagements in case of attack by a foreign navy or in connection with land maneuvers. As a part of their practice work the big ships will sail up and down the coast in order to train themselves for their work as a sort of aerial scouting line running the entire country.

If congress, which has shown much opposition to such an innovation as flying machines, can be persuaded to add to the point of view of the general staff, it would not be an unusual thing within a year or two, to see a large cigar-shaped dirigible sailing over any coast in the world.

It is expected, at least, that the interest in dirigibles, which has waned in the United States since Wright Bros. demonstrated the possibilities of the aeroplane, will revive again, and it is hoped that further improvements over the Zeppelin type, making them still more reliable for air navigation, will be brought about.

J. BULL GUARDS AGAINST CHOLERA

London, Aug. 29.—Under orders from the British health authorities all English port officials are today carefully examining arrivals from the continent to guard against a cholera invasion.

Dispatches from Russia today show conditions there to be steadily growing worse, with the exception of St. Petersburg, where a temporary check has been given to the disease.

English officials say that the Russian official estimate of a total of 112,000 cases and 50,250 deaths is at least fifty per cent short of the actual number as the means of gathering statistics in Russia are imperfect, and the authorities are inclined to minimize the gravity of the epidemic.

It is persistently requested from Italy that cholera be held from Italy, though official statements from that city deny this.

AUTO DRIVER INJURED IN TODAY'S RACE

TWO MEN PINNED UNDER CAR
WHEN IT TURNED OVER
IN COURSE.

Stearns Car Leads Big List of Entries at Brighton Beach Today.

Brighton Beach, N. Y., Aug. 29.—Vally Owen, driver, and Thomas Williams, his mechanic, were today killed in a fatal accident which occurred at the Brighton Beach race track. The Stearns car in which they were driving in the 21st race, which started here at 8 o'clock last night, turned over at the far turn while coming into the stretch. The car made a complete somersault and the two men were pinned under the wreckage. They were rushed to the Coney Island hospital where it is reported they are suffering from internal injuries of a serious character. The Marion car was wrecked and forced to withdraw from the race.

At the Coney Island hospital after the injuries of Owens and Williams had been dressed the physicians reported that Owens was seriously hurt, but would recover. Williams' injuries after thorough examination disclosed, were not serious.

At 7:30 this morning, at the conclusion of the eleventh hour of the twice around the clock race, the Stearns car, driven alternately by Patschke and Poole, was 35 miles ahead of its nearest competitor, a Matheson. The Stearns had negotiated 577 miles and was five miles ahead of the record established by the Buick car in October, 1909.

Half a thousand people remained at the track all night.

The following was the 7:30 score:

Car No. 5, Stearns, drivers Patschke and Poole, 755 miles.

Car No. 8, Matheson, drivers Chas. Basle and Whalen, 540 miles.

Car No. 6, Cole, drivers Endicott and Edwards, 491 miles.

Car No. 3, Marion, drivers Owen and Marel H. Paule, 425 miles.

Car No. 4, Houp-Stockwell, drivers Martin and Hartman, 363 miles.

Worcester, Aug. 29.—The body of Frank Pedone, a writer on spiritualism, was found yesterday in a pond in the Malvern Hills, south of here.

SCHLOSSER HIT BY B. & O. TRAIN

Fred Schlosser, a well known resident of this city, aged about 50 years, while crossing the South Fifth street railroad crossing Friday evening at 7:45 o'clock, was struck by an east bound B. & O. freight train, sustaining injuries of a very painful nature.

When the engine struck him he was hurled a considerable distance. He was picked up and rushed to the City hospital in Criss Bros' ambulance, where an examination of his injuries showed that he had sustained a severe scalp wound, that three ribs had been broken and that he had also received a number of bad bruises on various parts of the body. The attending physicians do not apprehend any serious results, and the indications are that he will make a quick recovery.

POLICEMAN SHOT BY THUG. DIES

Marion, Aug. 29.—Jerome Hostetter, aged 45 years, who was shot by a thug in the Erie yards Thursday night, died last night after making a brave struggle for life. Hostetter leaves a widow and four small children, the youngest two months old. Hostetter was a giant in stature, a fine specimen of manhood.

Prosecutor Justice last night made formal request of the county commissioners to offer a reward of \$500 for the arrest and conviction of the men who shot Hostetter. Detectives have been employed and every effort is being put forth to apprehend them.

Suspects arrested in Gallien and Bucyrus were found to be innocent. A message from Lima told of the arrest of two men who answer the description given out by the police. These men were seen boarding an Erie freight west of the city after emerging from a corn field. An officer went to Lima last night with Le Roy Hoffines, the man whom the thug first held up, to identify them. Police officers and railroad men all over the state are co-operating with the local authorities in an effort to capture the fugitives.

FREE FARMS IN FERTILE CUBA

Havana, Aug. 29.—In the hope of getting competent farmers to settle in Cuba who will become permanent residents of the country and not leave the country after they have "made their pile," the Cuban government is considering a scheme of bringing out 500 families from the Canary Islands and other Spanish possessions to Cuba and donating land to them. The plan is to pay the transportation of these men, furnish them with farms of from ten to twenty acres, finance them until they can become self-supporting and finally to tax them a small amount annually until they have paid back the money that the government has actually spent on them. No such inducements are held out to American farmers, because they show no disposition to become Cuban citizens. The Canary Islanders are preferred above others on account of their knowledge of irrigation. The government is preparing an elaborate system of national irrigation and a gigantic reclamation work on lands that are unutilized every year.
